ABOUT

Final-year Computer Science and Design student with strong analytical and problem-solving skills. Experienced in SQL, Python, Excel, data analysis and machine learning using real-world datasets. Skilled in writing SQL queries, data preprocessing, exploratory data analysis, and deriving actionable insights. Passionate about solving business problems using data and eager to contribute as a Data Analytics Intern.

EDUCATION

Atria Institute of Technology 2023–2027
Bachelor of Engineering in Computer Science and Design
CGPA: 8.78/10 Bengaluru

EXPERIENCE

AI Intern July 2026–Present
Infosys Springboard Remote

- Performed data cleaning, preprocessing and exploratory data analysis using Python, Pandas and NumPy.
- Worked with SQL databases and analyzed structured datasets to derive actionable insights.
- Automated repetitive analytical tasks using Python scripts to improve workflow efficiency.
- Prepared reports and visualizations to support project decision-making.

TECHNICAL SKILLS

Languages: SQL, Python, Java

Data Analytics: SQL, Excel, Google Sheets, Data Cleaning, Exploratory Data Analysis, Root Cause Analysis

Libraries: Pandas, NumPy, Matplotlib, Scikit-learn

Databases: MySQL, MongoDB

Visualization: Excel Charts, Matplotlib

Tools: Git, GitHub, VS Code, Postman

Core Subjects: DBMS, Data Structures & Algorithms, OOP, Operating Systems

PROJECTS

Smart Waste Segregation Dashboard 2025
React.js, Python, REST APIs

- Developed an analytics dashboard for waste segregation using React and Python.
- Analyzed operational data to identify trends and improve reporting accuracy.
- Optimized backend APIs, reducing response time by **35%**.
- Implemented GitHub Actions CI/CD pipeline for automated deployment.

Soil Analysis & Crop Recommendation 2025
Python, Scikit-learn, Pandas, NumPy

- Analyzed agricultural datasets containing over **10,000+** records.
- Performed data preprocessing, feature engineering and exploratory data analysis.
- Built a crop recommendation model improving prediction accuracy by **18%**.
- Generated reports and maintained project documentation using GitHub.

Bangalore Escape – Travel Guide 2023
React.js, JavaScript

- Developed a responsive travel web application using React.js.
- Analyzed user workflows and optimized UI performance through debugging and testing.
- Maintained the project using Git-based version control.

ACHIEVEMENTS

- Qualified Round 1, Round 2 and attended Round 3 of **Flipkart GRiD 8.0 (Software Development Track)**.
- Solved **100+** Data Structures and Algorithms problems on LeetCode.
- Built multiple analytics and machine learning projects using SQL and Python.
- Represented Sainik School Nalanda in the Central Zone Hockey Championship and secured **Runner-Up**.
- Awarded NCC 'A' and 'B' Certificates for leadership and discipline.
