ABOUT

Final-year Computer Science and Design student with strong analytical, technical and problem-solving skills. Experienced in Python, Java, SQL, REST APIs, workflow automation and AI-assisted development. Familiar with n8n low-code automation, API integrations, business process optimization and prompt engineering. Passionate about translating business requirements into practical technology solutions.

EDUCATION

Atria Institute of Technology 2023–2027
Bachelor of Engineering in Computer Science and Design (CGPA: 8.78/10) Bengaluru

EXPERIENCE

AI Intern July 2026–Present
Infosys Springboard Remote

- Developing AI-assisted workflow automation solutions using n8n concepts, Generative AI tools and REST APIs.
- Analyzing business requirements and converting them into automated workflows using Python and SQL.
- Working with Git, GitHub and Agile development practices while building automation projects.
- Preparing technical documentation, workflow diagrams and project reports.

TECHNICAL SKILLS

- Languages:** Python, Java, SQL, JavaScript
- Business Analysis:** Requirement Gathering, Process Mapping, Root Cause Analysis, Documentation
- Automation:** n8n, Workflow Automation, REST API Integration, Prompt Engineering
- Tools:** Excel, Google Sheets, Git, GitHub, VS Code, Postman
- Web:** React.js, Node.js, Express.js
- Databases:** MySQL, MongoDB
- Methodologies:** Agile, SDLC, Problem Solving, Presentation Skills

PROJECTS

Smart Waste Segregation Dashboard 2025

- Designed an AI-powered dashboard to monitor waste segregation and operational insights.
- Integrated REST APIs and automated workflows for efficient information processing.
- Improved backend response time by **35%** through optimization and debugging.

Soil Analysis & Crop Recommendation 2025

- Developed a crop recommendation solution using Python, Pandas and Scikit-learn.
- Performed preprocessing, feature engineering and analytical reporting on 10,000+ records.

Bangalore Escape 2023

- Built a responsive travel platform and translated user requirements into application features.
- Improved usability through testing, debugging and iterative enhancements.

ACHIEVEMENTS

- Qualified Round 1, Round 2 and attended Round 3 of **Flipkart GRiD 8.0 (Software Development Track)**.
- Solved **100+** LeetCode Data Structures and Algorithms problems.
- Represented Sainik School Nalanda in the Central Zone Hockey Championship (Runner-Up).
- Awarded NCC 'A' and 'B' Certificates.
